

# Jonathan D. Seal

80 Machine Shop Hill Rd. • South Windham, CT 06266  
860-631-7325 • mrjonathanseal@gmail.com • Twitter: @jseal • Website: <http://jonathanseal.net>

## Objective

To secure a leadership position that will allow me the opportunity to work together with teachers, students and parents to enhance and enrich school-wide teaching and learning experiences. I offer a proven track record of performance in middle and high school, a passion for education, and a commitment to seeing students succeed.

### Core Competencies

- SRBI/RTI implementation in both academic and behavioral skills
- Implement and run SRBI/RTI team meetings
- Created and worked on various curriculum committees (including CCSS in Algebra)
- Trained in and use Differentiated Instruction
- Implement technology within the classroom to enhance instruction (Google Classroom, SMART boards, Moodle, and GeoGebra)
- Expert at implementing and using Blended Learning, and training teachers with blended learning.

## Experience

### Assistant Principal

*Connecticut Technical High School System*

As the only assistant principal for six months I supervised all the academic teachers and non-construction trades at E.C. Goodwin Technical High School in New Britain Connecticut. I worked directly with Support Services to help misbehaving students correct their behavior through an individualized approach that couples discipline with interventions. I also supervised data teams, planned and delivered PD for the school, and worked with school improvement team. I worked closely with the principal in developing and implementing policy, planning the school schedule, progressive discipline of students, and fostering positive growth of teachers.

### Key Contributions:

- Assisted in the development of department SMART goals as part of SIP
- Administered 2014 Smarter Balanced Field Test to grades 10 and 11 (300+ students)
- Drafted an entirely new school schedule for 2014-15 that incorporates interdisciplinary Professional Learning Communities for grades 9 and 10.
- Coordinated daily substitute coverage
- Microsoft Office Certified (Word & Excel)
- Implemented SEED Evaluation system

### Related Department Head

*Connecticut Technical High School System*

As related department head I supervise the math, science, computer, and art departments. This includes administrative tasks such as supervision and evaluation of department faculty, disciplining of students, supporting faculty members' professional growth and development, and bringing a positive cultural change to the school. I also lead data teams, plan and deliver PD for the school, and work with the school improvement teams. As one of two academic department heads, I work closely with the principal and assistant principals, in developing and implementing policy, planning the school schedule, progressive discipline of students, and fostering positive growth of teachers.

### Key Contributions:

- Lead SRBI/RTI team level data meetings including fostering collaboration through online tools.
- Developing department SMART goals as part of SIP
- Providing Professional Development for technology skills at school and district level.
- Fostering interventions for at risk students identified through SRBI/RTI process
- Yearbook Advisor
- Microsoft Office Certified (Word & Excel)
- Modeling a Flipped and blended classroom
